

eBay®, POS and e-Commerce System

B2B Enhanced Modules for mid-sized Companies

 (Hosting and Secure Transaction fees apply) 

Y.E.S.! B2B™ provides a **complete e-Business solution** for retailers and wholesalers, including automated eBay® distribution, e-Commerce website design and creation, and Front Office & Back Office Systems, including International Currencies, Inventory Management and Control, Tax Calculation and a Point-of-Sale system.

Whether you are a **single or multi-site** operation, **Y.E.S.! B2B™** is designed so that you can instantly process in-store and eBay® sales, and have your e-Commerce website built and functioning online within hours. Inventory management features allow you, the business owner, to fully track and manage your inventory sold either via the web, through eBay® auctions, or through your storefront. **Y.E.S.! B2B™** also supports day-to-day business operations such as the receiving, processing, and accounting of online orders.

Y.E.S.! B2B™ gives you, complete control over how your website looks and operates. An unlimited number of HTML pages, designed through the **Y.E.S.! B2B™** word processor-like HTML editor, can be added to sites to allow full control of the information presented on your site. You have the ability to offer **customized pricing** to your clients on an item by item basis or by customer/dealer type.

Advertisements, promotions and customer/dealer communications are easily managed through email promotions, utilizing the HTML editor and customer/vendor database.

Y.E.S.! B2B™ assists in total inventory control. **Y.E.S.! B2B™** allows you to track your inventory by accurately monitoring quantity levels and re-order points. The flexibility of the inventory management system supports warehouse inventory control and Just-In-Time ordering.

Y.E.S.! B2B™ automates the entire order entry and fulfillment process. **Y.E.S.! B2B™** provides an easy and simple way for you to receive, process, and fulfill product orders. It also allows you to support storefront operations by including a full featured Point-of-Sale system.
