

## Complete, Integrated Point-of-Sale System

**Y.E.S.! FRONT OFFICE™** is a full-featured P.O.S. system. The user interface is simple which means making a sale in the merchant's store is fast and easy - using a mouse or a few simple keystrokes.

**Customer information is easily tracked, and the merchant can offer customers payment options that include cash, credit card, credit, or other means of payment.** In addition, invoices and credit memos are easily created for each customer. Based on merchant-defined criteria, any shipping charges and sales taxes are automatically calculated and applied.

**Y.E.S.! FRONT OFFICE™** also has built-in barcode technologies for in-store use. Select items from inventory, type the bar code number, or simply **scan items** to add the items to the sale. When a sale is completed from the Point-of-Sale screen, the inventory is automatically updated, and the **sales, customer, and tax information** is recorded. As a result, **Y.E.S.! FRONT OFFICE™** provides a seamless business operation for the merchant.
